Framework	Tailwind, Bootstrap
Programming	Java,Python(Basic)
Subjects	Data Structure and Algorithm(DSA),Object-Oriented Programming(OOP's) Relational Database Management System (RDBMS), Operating System (OS). Computer Network(CN).

Work Experience

Recruit41 QA Engineer	Sep'2024-Nov'2024
• Co-led the development and execution of an AI Interviewer Bot and its supporting application, overseeing end-to-end functionality testing, performance benchmarking, and user-experience validation, and iterative optimization to ensure reliability, scalability, and seamless candidate engagement.	

Projects

TaskFlow - Intelligent Todo Management System	Dec'25
• TaskFlow is a full-stack todo management application built with React and Node.js. It features user authentication with JWT tokens, persistent data storage, dark mode support, and a responsive UI. Users can create, manage, and track their daily tasks with ease. The application includes real-time statistics, task filtering, and localStorage persistence for seamless offline functionality.	
Ollama Local Chat Application	Oct'25
• Developed an interactive Ollama Local Chat Application using React.js, JavaScript, CSS, and Fetch API, featuring a modern responsive design and smooth AI-powered communication.	
Hospital Management System	Sep'25
• Designed and implemented a Hospital Management System using Java and MySQL, enabling efficient management of hospital data through complete CRUD functionality.	

Academic and Extracurricular Achievements

• Secured First Position in Web Designing Competition.	
• Secured Third position in an inter-college Tech Quiz Competition.	
• Secured 2nd position in District-level Cricket Competition.	

Positions of Responsibility

Sports Club Member	Jun'2022 - Jun'2024
• Assisted in organizing a multi-college sports competition, coordinating schedules, logistics, and inter-college team communications.
